

Letters from Santa

Christmas is a special time of year for a child, a letter from Santa is a cherished memory. That is why we have this letter for you. Sometimes your child's letter is hard to read and understand so we are asking you as parents/guardians to please help. By giving Santa some additional information about your child we can better answer their letter with a personal response from Santa. The one thing Santa does not do, is make promises in the return letter. Sometimes children ask for things parents/guardians cannot get for the child.

*Thank you and Seasons Greetings from
